Original: German

RID: 44th Session of the Committee of Experts on the Transport of Dangerous Goods
(Zagreb, 19 - 23 November 2007)

Subject: RID 5.4.1.1.3: Special provisions for wastes

Proposal transmitted by the Secretariat of OTIF

Introduction

RID 5.4.1.1.3 sets out the information that has also to be included in the transport document for the carriage of wastes. A total of four examples are given which take account of the various possibilities that are prescribed in RID 5.4.1.1.1 in relation to the information concerning the packing group and technical name. At present, the text in 5.4.1.1.3 of both RID and ADR is identical.

In contrast to RID 5.4.1.1.6 (special provisions for empty means of containment, uncleaned), RID 5.4.1.1.3 does not contain any information on whether and where the hazard identification number must be given when carrying wastes in bulk or in tanks.

Proposal

5.4.1.1.3 Add the following sub-paragraph:

"If a marking in accordance with 5.3.2.1 is prescribed, the hazard identification number in accordance with 5.4.1.1.1 (j) shall be preceded by the word "WASTE", e.g.

- "WASTE, 33, UN 1993 FLAMMABLE LIQUID, N.O.S. (toluene and ethyl alcohol), 3, II" or
- "WASTE, 33, UN 1993 FLAMMABLE LIQUID, N.O.S. (toluene and ethyl alcohol), 3, PG II".

For reasons of cost, only a limited number of copies of this document have been made. Delegates are asked to bring their own copies of documents to meetings. OTIF only has a small number of copies available.
