RID: 18th session of the RID Committee of Experts' working group on tank and vehicle technology

(Video-conference, 6 and 7 October 2020)

Subject: Openings for the inspection of tanks

Transmitted by the Chairman of the RID/ADR/ADN Joint Meeting's working group on tanks

It is proposed to add the following second sub-paragraph to the right-hand column of RID 6.8.2.2.4:

“These openings for tank-containers with a capacity of more than 40,000 litres intended for the carriage of [substances in the liquid state] [liquids] shall be provided with closures designed for a test pressure of at least 0.4 MPa (4 bar). Hinged dome covers for these tank-containers with a test pressure of more than 0.6 MPa (6 bar) shall not be permitted.”
