

## Governance, transport and good practice

The Secretary General of OTIF, Mr François Davenne, will participate in the International Transport Forum (ITF) to be held in Leipzig from 31 May to 2 June 2017 under the chairmanship of Mexico.

This year, the main theme of the Forum is the governance of transport.

Mr Davenne will speak during the panel session on 1 June: “Governance of gateways and corridors. Exploring good practice”. He will highlight the need to establish common rules, particularly in order to manage and optimise the new Euro-Asian routes.

Seamless international traffic is a core concept in the work of the OTIF Secretariat’s experts on railway contract law, regulations on the carriage of dangerous goods and technical interoperability.

The Secretary General of OTIF would like to offer the International Transport Forum’s teams his warmest thanks.
