

## Committee of Technical Experts 2018

The Committee of Technical Experts will hold its 11<sup>th</sup> session in Berne on 12 and 13 June 2018.

According to [the provisional agenda](#) the Secretariat will present information on National Vehicle Registers and the European Union will present information on noise reduction measures.

The Uniform Technical Prescriptions GEN-B “Subsystems” should be adopted.

Participants will then discuss a strategy for producing provisions relating to the infrastructure and a strategy to make route compatibility checks easier.

Lastly, there will be a presentation on the new working group of legal experts.

Among the participants, the Secretariat is pleased to welcome representatives from OSJD, CER, UNIFE and the Gulf Cooperation Council (GCC).

OTIF's Committee of Technical Experts (CTE) enables the Member States to work on technical interoperability and harmonisation in the rail sector. The CTE also covers the development of uniform technical admission procedures for rolling stock intended to be used in international traffic. This Committee validates, adopts and develops the uniform technical prescriptions (UTP) for railway material used in international traffic in the framework of OTIF.
