

RID/ADR/ADN Joint Meeting

The RID/ADR/ADN Joint Meeting will hold its last session of the 2018/2019 biennium from 17 to 27 September 2019 in Geneva.

Its main task will be to harmonise RID, ADR and ADN with the 21st revised edition of the UN Recommendations on the Transport of Dangerous Goods, which a working group prepared in April on the basis of a draft produced by the Secretariats of OTIF and the UNECE.

Two working groups dealing with tank and standardisation issues will meet in parallel to the plenary meeting. The Joint Meeting will also deal with the results of these working groups.

Lastly, the Joint Meeting will examine the reports of various working groups that have met since the last session in March at the invitation of various Member States. Some of the topics they dealt with were telematics, improvement of the accident report and the carriage of dangerous wastes.

At the first Joint Meeting of the 2020/2021 biennium, which is planned for 16 to 20 March 2020, minor corrections can still be made to the decisions taken in the 2018/2019 biennium that will be incorporated into the 2021 editions of RID, ADR and ADN.
