

The last RID/ADR/ADN Joint Meeting for the 2021 edition

The RID/ADR/ADN Joint Meeting will be held from 16 to 20 March 2020 in Berne, Switzerland.

The RID/ADR/ADN Joint Meeting is jointly organised twice a year by the Secretariat of OTIF and the UNECE Transport Division. Its aim is to harmonise the dangerous goods provisions for land transport (rail, road, inland waterways). In order to achieve this, experts examine amendments originating in particular from the UN Model Regulations and amendments that are specific to land transport.

This March session will be the last session from which the results can still be included in the 2021 edition of the Regulation concerning the International Carriage of Dangerous Goods by Rail (RID), the European Agreement concerning the International Carriage of Dangerous Goods by Road (ADR) and the European Agreement concerning the International Carriage of Dangerous Goods by Inland Waterways (ADN). However, a large number of documents have been submitted to this RID/ADR/ADN Joint Meeting. As a result, delegates will have to preselect the documents that will be given priority and the emphasis will be on work that the Joint Meeting was unable to complete at its previous session.
