

Multilateral Agreement RID 1/2009

according to section 1.5.1 of RID concerning the transport of UN 1495 sodium chlorate in tank-wagons for traffic in powder form

By derogation from the requirements of the first sentence of special provision VW 8 of section 7.3.3 RID UN 1495 sodium chlorate may be carried in special wagons with a closed body (e.g. tank-wagons for traffic in powder form).

All other relevant provisions of RID shall apply.

In addition to the prescribed details, the following statement shall be included in the transport document:

"Carriage agreed according to section 1.5.1 of RID (RID 1/2009)".

This agreement shall apply up to 14 August 2014 to transport on the territory of those COTIF Member States which have signed this agreement. If it is revoked before that date by one of the signatories, it shall only remain in force until the above mentioned date for transport on the territory of those COTIF Member States which have signed this agreement but have not revoked it.

Done in Vienna on 14 August 2009

The competent Authority for RID
in the Republic of Austria:

Mag. Othmar Krammer
