

Multilateral Agreement RID 5/2010

according to section 1.5.1 of RID
concerning the carriage of UN 1057 LIGHTERS and UN 1057 LIGHTER REFILLS

By derogation from the provisions of RID, UN 1057 LIGHTERS and UN 1057 LIGHTER REFILLS are exempted from all other provisions of RID if the provisions of Chapter 3.3, special provision 201 of RID and of sub-section 4.1.4.1, packing instruction P 002, special packing provision PP 84 or special packing provision RR 5 of RID are applied and the following conditions are met:

1. Each package is clearly and durably marked with "UN 1057". This marking shall be displayed within a diamond-shaped area surrounded by a line that measures at least 100 mm × 100 mm. If the size of the package so requires, the dimensions may be reduced provided that the marking remains clearly visible. Overpacks are marked in the same way, unless the marking of the package is visible.
2. The gross mass of a package containing such articles does not exceed 10 kg.
3. The quantity of such articles carried in a wagon does not exceed 100 kg (gross mass).
4. A copy of this agreement is carried.

This agreement shall apply up to 30 June 2015 to carriage on the territory of those RID Contracting States which have signed this agreement. If it is revoked before that date by one of the signatories, it shall only remain in force until the above-mentioned date of expiry for carriage on the territory of those RID Contracting States which have signed this agreement but have not revoked it.

Done in Vienna, 23 December 2010

The Competent Authority for RID
in the Republic of Austria:

Mag. Othmar Krammer
